Data and software

1. Data files and content

There are the following eight csv data files.

(a) Student data
- Baseline survey data: student_test_7_baseline.csv
- End-line survey data: student_test_7_endline.csv
- Follow-up survey data: student_test_7_fus.csv

(b) Teacher data
- Baseline survey data: teacher_7_baseline.csv
- End-line and follow-up survey data: teacher_pool.csv

(c) School data
- Baseline survey data: school_principal_7_baseline.csv
- End-line and follow-up survey data: school_principal_7_fus.csv

(d) Parameters of the items in math tests
- item_analysis_el_salvador_G7.csv

2. Variables in data

The content of variables in data files are listed in the codebook files.

3. Software (R codes)

Please refer to the following two code files.
Codes for student data: "submission_ijer_el_salvador_student.R"
Codes for teacher and school data: "submission_ijer_el_salvador_teacher.R"

4. Student math test

There are three types of math test.
- Math test for the baseline survey
- Math test for the end-line survey
- Math test for the follow-up survey
